

SERIOUSLEARNING.COM PUZZLE TEMPLATE

Trace the pieces onto a piece of craft foam or print on cardstock. Cut along lines. If you don't use the template as a reference, it's actually quite a challenge to put the pieces back together as a cross.

This is a great puzzle for kids to make, since it doesn't involve a lot of complicated cutting, and the result is fun and challenging.

A great gift for kids to make for adults as an Easter present too!
